

Your Month Expires.....

DR. W. W. FROST,

Clairvoyant and Botanic Physician.

Terms of Treatment:—Five Dollars per month, payable in advance; all medicines found.

Springvale, Me., July 23rd 1886

Mrs Moulton

Upon examination of hair
we find the trouble in this case
to be caused by sluggish action of
the liver and kidneys leaving
the blood impure and impregnated
with cancerous humour very
sluggish in circulation effecting
the head and the action of the
heart, causing irritation of the
mucus tissues of the kidneys and
womb debilitating the gastric
juice of the stomach thus impairing
digestion. Think the case can be
helped. Notice head for terms of
treatment.

Your's Respectfully

W. W. Frost
