Grandma received your welcome letter of the 9th on the 17th, about one hour after I had ^{put} a letter for Grandma in the Post Office to go to Mobile.

I will give you some account of my studies as you asked me to.

I study Geography and am interested ~~test~~ in it and expect to go into A higher class soon.

the things looked very pretty. the hall was dressed up in ~~ant~~ evergreens. the Firemen ~~to~~ paraded and look'd very pretty. the truckmen also paraded and look'd very neat. the Fantasticks made rather a failure.

they were very pretty. tell ^{Ellen} I was much pleased. I am keeping a little shop. but do not get much money for my goods, as they are not worth much.

when I am a little older, I shall write you a better letter. In the meantime I shall write you as well as I can, and hope you will find, that I am prove in each

Eunice has got rather tired of letter writing, for the present, her next letter Miss Cross will superintend and I think it will be better. I have not any thing very interesting to write, but I thought, I would not send blank paper to Mobile if postage is cheap. Louisa calld to see me yesterday, said there had been two gentlemen here from Mobile, that came out to Boston in the vessel with her, they have gone to Bath. I notice what you say respecting her engagements being broken of. I think it will be a very pleasant thing to her family if it is the case, they dont any of them, like the idea of her going so far from home, and I think she would very much prefer living in Portland. I am afraid you are having, too, much care for one, in your situation. I fear you will get intirely worn out this hot weather, we are having very warm weather here, but we are all very well, my health is better this summer than it has been for three years, I think. I have had a great deal of care, this summer repairing buildings, but we have now got about through for the present. our buildings are all old and are constantly wanting repairs. and there is no one now to superintend but me, so that with my out door cares and in door work I am kept pretty busy. Mrs Condit remains very feeble she has not been out to Church since her babe was born. Mr Condit's health is pretty good. Capta Clapp is much better this summer than he was last. I am much oblig'd to Mr Sewall fo his kind invitation to spend a year with you, I should be very happy to be with you all you may be assur'd, but the journey is too long a one for me to undertake. I live upon hope that you will move here or at least half way, I will engage to meet you half way. may God bless you and keep you in safty my dear children from your Mother
