My Dear Friend

Saml. Taylor Jr.

Thy letter written at Newport
6mo. 10th was very acceptable, & I hardly know what
excuse to make for not sooner making this acknowledg-
ment. as I do sincerely value the acquaintance & friendship
& I hope good understanding that subsists between us, &
which I hope may never be interrupted materially.

Many engagements I have had, but do not think they
ought to have prevented my writing to so valued a friend,
tho' I feel my lack of qualification for letter writing, in
any way except conveying information & I do not wish
to burden thee with my troubles, but I may venture
to let thee know, after going so far as I did when thou
wast here, which I have feared was not agreeable, nor altogether
best for thee to hear: that in an unlooked for way, I
had opportunity to clear myself from some serious charges,
& that a kinder & I hope better feeling exists in that quarter.

I can feel that it was a mutual happy meeting
for thee & dear John Warren, who was very acceptable at
our Y. Meeting & at my house. we often think & speak
of him & thee with much affection. & desire we may be
truly grateful for the privilege of your company etc. — which
please convey to dear John, with our love when thou hast
opportunity. One reason I have not written may be

Description: Letter to Samuel Taylor Jr. from Henry Hinsdale.

I perhaps thou may take our Y Meeting in thy way. if so we should be glad to have thee as our lodger at 198 Henry St. & J. D. Laring also, Whenever he comes to N. York.

I think is, that I hoped to hear something further during the Summer, of the visit West of the Miss. River or to see thee on thy way there, but from late acct rec^d. by our clerk of Indian concerns; It appears that it is not likely to take place before next year, & then perhaps the tribe (or 3 fold) Band will be made up, which would be not easily broken I trust, but if only twofold, there remains the same blessed promise to two as to three, I think. & the same qualifying & protecting power, to carry through His own work and service. — Our clerk M. Day is trying to collect information as to mode of conveyance &c. and will no doubt convey to D^r Toby anything that may be that useful. — The early part of Summer seems to be the best time.

I was glad to meet with our dear friends C. Douglass & D. Faber on their way west, they attended our meeting very amply & I hope we may see them here at our Y. Meetg. next year, if we all live. — It does not appear I think from last accounts that R. J. Quarter has got through the difficulty there, indeed I heard that J. W. had come to the conclusion not to meet with Friends on the Subject, but was glad to hear that T. Gould of Newport had appeared more settled, & stated that he intended giving up criticism.

I wish we might all ~~be more guarded than some have been.~~

I suppose thou w^d. like to know what we have heard respecting our dear friend J. J. Gurney.

Thou may have already heard that he with JJ Gurney
& J. Forster visited Paris soon after their comfortable yr Meetg
"in order" as his letter states, "to converse with the rulers of
the land on the subject of the abolition of Slavery & to bear
my personal testimony respect the good effects of emancipation in
the British West Indies. We met with a very open reception from
Guizot & others of the Ministers - also from the King & Queen. In conclusion
we rec^d. a comp^y of more than 100 persons (many of them distinguished people)
"at our Hotel - when I was enabled to address them in French for upwards of an hour.
"unfolding all the principal particulars of the subject. A lively & even deep
"impression appeared to be made & the next morning we left Paris
"in peace." After his return from Paris he was liberated by
his mo. & quarterly meetgs[^] to visit the Hague, Copenhagen, Berlin &c. on the
continent, including friends of Pymont & Minden in Germany. - his Sister
E. Fry also accompanying him on a similar concern, they travelled with
his daughter in co. & his bro. Sam^l. Gurney states to me that he had
(9 mo. 9) rec^d. favourable accounts of them from Copenhagen & then
family &
expected JJG. home in the course of a month. when his ^ friends
were looking forward to his marriage with E. P. Kirkbride, (an
American whom thou may have heard of) with much comfort
& Satisfaction. I have lately been at Burlington N.J. with my wife & daughter
on a social visit: our friend S Grellet at whose house we lodged, read us a
very interesting an^t. written by a person who interpreted for JJG. & Sister,
at one city, I think Berlin. It appeared their visit & Gospel Services
were very acceptable. I hope to have more particulars of this
last journey before long. we are all pretty well except my wife
