

Dartmouth, 9^{mo} 25th 1845

Samuel Taylor Jr.
Dear Friend

I received a few lines from thee by which it appeared that John L. Alben had a desire to obtain a School in this Section of the country, the Subject readily claimed my attention and ~~more~~ particularly so in consequence of my esteemed friend Charles — and the high recommendation given by thyself — but notwithstanding the many applications that I have made on his account and the long lapse of time I am unwillingly brought to state that no opening has presented for him — and apprehending that ~~any~~ longer delay ~~ix xxxix~~ might deprive him the opportunity to engage elsewhere I profess sending this at the earliest opportunity.

I may here inform that the number of applicants for our winter Schools has been unusually large — and those Schools which commanded the greatest wages were engaged quite early — further a disposition prevails to reduce the wages of teachers.

Dear Friend

I received a few lines from thee by which it appeared that John L. Alben had a desire to obtain a School in this Section of the country, the Subject readily claimed my attention and ~~more~~ particularly so in consequence of my esteemed friend Charles — and the high recommendation given by thyself — but notwithstanding the many applications that I have made on his account and the long lapse of time I am unwillingly brought to state that no opening has presented

for him — and apprehending that ^a longer delay ~~in writing~~ might deprive him the opportunity to engage elsewhere I profess Sending this at the earliest opportunity.

I may here inform that the number of applicants for our winter Schools has been unusually large — and those Schools which commanded the greatest wages were engaged quite early — further a disposition prevails to reduce the wages of teachers.

It is to me a consoling reflection ~~to me~~ that Friends
however remote from each other, feel an interest
for one another - and especially so at this painful
crisis - as this seemed to come before my mind
I thought no harm would be done were I to say
that we yesterday assembled in the capacity of Mo.
Meeting and were permitted to transact the business
entirely select, not one of the separatists being
present, and I believe I never sat in our Mo. meeting
when it appeared to be more sensibly owned by our Holy
Head, and although much business was brought
before the meeting, it was feelingly and harmoniously
transacted.

Seth Davis & Wife were denied the right of
membership. —

The disaffected held what they
call a Mo. meeting at Jesse Tucker's —

I have written what this sheet contains in great
haste and should there appear any thing amiss
about it please inform me.

With Sentiments of esteem
I am Thy friend Geo. W. Francis
