

Dear Dick,

Here's My 'Gaspé' photo-

I still can't fully grasp what this hike has meant to me, all I know is that it ~~was~~ what I needed, and what I wanted, and I appreciate it for that reason. The IAT ~~was~~ a major part of this feeling. Once again, I thank you for all your help in making Gaspé a reality for me. Your work in creating this trail is work that will not only better our appreciation of nature but will better the people themselves who hike it. It is a humanitarian effort as much as an environmental one. Best wishes in the New Year
