These are a few of our most recent sales.

This concern is the leading one in the Eastern States & its Enquiries rank very high. You can judge of the preference they have when I tell you we have nearly \$500,000.00 in orders now on our books.

Will price determine the selection or is quality more important?

I wish your Co. would send you down here to look at engines. Can't you bring that about?

We are nicely settled here in our new home & shall be glad to see any of you. Sherman was here yesterday & he tells us Ned is very popular at College, which is another case of heredity I suppose.

Hoping to hear from you soon I remain

Very Truly Yours
JR Driscoll
