Dear Father,

I intended to have sent a letter by
Rust, yesterday, but I forgot it, till just about the time the
stage started. I received your last letter safely, which you
sent by John. You ask how much money I shall need
for the payment of my board bills & other expenses:
I think about \$28. including stage fare home (which I believe
has been raised to \$2.00) &c. You spoke in your letter
about getting a new instructor in the Languages at G-
in consequence of Mr. Edwards' leaving. Would not
Washburn do? I think he would like the place very
well, and that he is competent to fill it quite ably:
not so well perhaps as Mr. Edwards, but certainly
as well as the common run of teachers. He has the repu-
tation of being the best scholar in his class, especially
in the languages. What made me think of writing of this
was because the other day, in talking with him about
the affairs of Gorham I chanced to remark that they
were going to have quite a change in the Teachers
Department now Mr. Edwards & Douglass were about
leaving; when he said, he should like to take Mr.
E-s place. I think the Faculty would give him very
high recommendations. (Being President of the Peucinian
is no small one.) The students have been in a con-

considerable state of excitement during the past week, on account of rows with the "Jagers". That the students have not been to blame for their conduct may be known from the fact that The Government, and most of the leading men of the place have given their sanction & approval to their conduct through the whole affair. Things had come to such a pass that a student could not go down to the lower part of the town without being insulted. At last to crown all the Jagers came up one night last week to the Colleges and began to throw rotten eggs & brick bats at some of the students who had collected to oppose their entrance to the grounds: but still the students did not touch them and after a while, by the interposition of the Faculty, the Jagers were sent home. This was the beginning of the affair. Rust can tell you about it- I hope it has blown over now entirely, and that we shall have quiet for the future - We find Moliere's plays very amusing - We have commenced studying Newmans Rhetoric also - I would not tell Dr W- about this scrape, as they will be so afraid about John. Please give my love to all - and believe me

I am, as ever

Dear Mother,

I received your letter and the pin with much pleasure, and am much obliged for both. In regard to the pin, I don't know as I shall want it, as at last my Peucinian Pin has come, and I suppose I must keep it. I think it is very pretty, but if I had one of the kind, I should like one with a small gold chain & pin attached to it. You will do as you please in regard to it. (I believe Father has no breast-pin). I meant to have sent it home yesterday, but for the same reason I gave for not writing, did not. ~~But~~ If I meet with an opportunity, I will send it but if not, I will bring it with me on my return. Accept again my thanks for it, and the love of your affectionate son
Josiah-

P.S.

There is plenty of egotism in my letters, isn't there? There are no less than 14 I's in my short note to you.
