Dear Sir --

Below I give you the returns of the votes of a few towns in the County of York for & agt. the separation; from which you may infer that instead of their being a majority of 800 agt. the separation in this County, as relied upon by its offours there will be a majority of about 500 in its favour; I therefore conclude that if the County of York gives a majority of 500 in favour of the separation the majority in the whole district will not be less than 5000.
