

Friday night.
Now, my dear mother, you must just stop worrying about me. I am O.K. and am taking all the precautions possible against the Flu. It sure has got a terrible hold on the camp and everything is tied up worse every day. They keep us just as busy as ever. I was on guard last night but only during study hours. I hope to be able to see my new friends- the Munns- this week-end. Only 10% of the Battery can go on pass so I'll be lucky if I get away. You must all take care of yourselves and not get sick.
Will write Sunday.
Love to all.
Sum.
