

Portland 21st April 1816

Dear Sir,

Where are the funds which you & Judge Hill promised to collect in your section? We are in great want. A considerable expense has already been incurred, and we have now a pamphlet in town, the printing & distribution of which with other things connected will require 3, 4, or \$500 or as much as we can get. We intend to have printed from 5 to 10,000 and to distribute them by missionaries sent out for the purpose. Now do, for the sake of Maine and the love of separation, give us a lift. If you have not yet started the subscriptions, I think your convention will be in a fine time.

Whiting & myself will do all we can with our quills, but cash we have none—we will however beg all we can here—Preble has written the pamphlet—and has done well—it will do much good—

Things look well here—we should have separation federalists for keep if not republicans—

Don't forget us—let me hear from you—

We will write you. k. on this subject—

Yours in haste
