January 9, 1919.  
Dear mama:  
Just a few lines to let  
you know we are  
well. Only one doctor  
came and he only  
stayed two days so he  
didn't help much. The  
first two nurses only  
stayed two days - too  
much work to suit  
them I guess, with  
so many sick in  
each family they  
had. We have two  
more <sup>nurses</sup> now and they  
are doing a little  
better work. Elder  
Sheehy the Saints  
minister is really  
splendid. He goes in  
from house to  
house and cares  
for those most in  
need of it.

Description: Letter to Annie Cromwell Blake from daughter during influenza pandemic

On the opposite side Mr. Robinson has a sign on his door, "Do not come in if you have a cold." However, he has helped a lot in other ways sending food and getting others to where it was needed. I think he is more afraid of it for Mrs. R. as she is so frail.

I think I told you Molly had influenza which developed into pneumonia. Last night her baby was born. It was only seven months but it lived until this afternoon. They have but little hopes left that Molly will live. She

has been unconscious since early this morning. Isn't it dreadful? About two weeks ago I went up and spent the afternoon with her and we had such a nice time together - more like the old times and it is a pleasure to me now that I did. I do hope so that she will be spared her family need her so much. John must feel dreadfully.

Yes, Frances' letters seem very cheerful. I am glad she is feeling well. There is only an occasional new case now here and I think it will soon be all over with. I shall keep Lois here to work until she can be home more.

Yes, Frances' letters seem very cheerful. I am glad she is feeling well. There is only an occasional new case now here and I think it will soon be all over with. I shall keep Lois here to work until Jim can be home more.

It will be cheaper in the end than to work beyond my strength would be.

Richard doesn't walk much just a few steps at a time. Jim says he is too heavy for he acts as tho it was too much exertion and after taking a few steps he either creeps or steadies himself by something. I think he is lazy.

He says "see" and "pretty" a lot and is always trying to make us "see" something.

Friday afternoon Molly passed away at 3 P.M. I cannot realize that it is really so.

We are certainly having  
it hard here. Not many  
deaths in proportion to  
the sickness but they  
are all felt so in a  
little town. I have  
never felt so badly before  
and I pity John awfully  
left with those three  
little children.

I cannot write very  
cheerful letters now  
but know you want  
to hear often.

With heaps of love  
Alice.
