

Hon. John Lynch

Allow me to congratulate you,  
my dear Sir, on your admirable  
presentation of your views on  
our national- finance question .

I have met with no  
plan, I might say, with no  
suggestion , so satisfactory to  
myself; and I trust, when  
our law givers are at leisure, they  
will see that Common sense and  
large experience in Banking and  
more than  
business matters, are worth ^ all  
the dreaming theories of men  
without practical knowledge.

Success to you & your plan!

Yours truly
