Spencer Lake Camps

FOR AN OUTING either for Fishing, Hunting or a summer vacation come to Spencer Lake, one of the most beautiful sheets of water in the State of Maine, being six miles long and nearly a mile in width.

HIGH ELEVATION

The Popular Single Cabin idea prevails at the Spencer Camps, where you have what is practically your own home in which to live and sleep, with entire relief from care of meals, which are taken in the main dining room.

The Spencer Camps, not being too remote and difficult to get to, yet they are located so that a certain amount of privacy is assured, and being out of any direct route of travel, our guests have practically the whole region to themselves.
