SALT LAKE CITY, UTAH

Dearest Mother & All

Sorry I haven't written before but if you were ever in the Army or anything like it you would understand. I'll have to write this for the 3 of you because it takes to much thinking & time to write intervidules letters.

Say what the idea of such big envelopes they cost about twice as much as the small ornadery ones & they do just as good. I don't care how many times the letter is folded.

Oh yar the story on the picture isn't very long. When I was at Myers I had them taken & I shiped out to soon for me to mail them out. So all I saw was the prof proffs & told them to send them out when they was finished & they though that I had written you & told you they were comming & when they ran out of frames they would drop you a card so you wouldn't think they were lost & it spoilt my serprise. but such is life & hope you got them by now.

isn't

Oh yar the story on the picture w ^ very long. When I was at Myers I had them taken & I shiped out to soon for me to mail them out. So all I saw was the prof proffs & told them to send them out when they was finished & they though that I had written you & told you they were comming & when they ran out of frames they would drop you a card so you wouldn't think they were lost & it spoilt my serprise. but such is life & hope you got them by now.

Glad to hear the garden is coming along fine & hope it's the best we have ever had. because you sure need it this year.

Well Wed. will make 3 weeks we have been here & I am ready to go out any time. One thing we get good food & that's half of the battle. We have to put up with a lot of hot air here. The Permain Party guys are in charge of us & they are Pvt. & P.F.C. & maybe that don't make us feel good. But not only us Sgt. but also First & Master Sgt. has to take orders from them & maybe they like that. And of course seeing they are in charge with no strip on one strip are in charge with no strip on one strip they like to rub it in & we can't do a thing about it. But we can take it & at the end of the month just laugh at them. because that is what counts

You got good ideas on papering up the ^{rooms} & clean them all up but don't you think it is to much for you. You sure got hooked on the white washing but that is us all around. Tell grammie to take it easy & not work so hard. A little work is O.K. but working till 10 & 11 is to much.

Glad to hear uncle Lewis is back in the yard but it's to much for him to stick to it steady, I think. How is their garden & hen & myr'r Pig now days

Say how do they work on the road, do they put in a 1/2 days work or do they work like W.P.A. What do they do with all the ship yard cars. Send them down Broadway & where abouts. I suppose the yard is going just as good as every ay what.

Ask Clarence about how long does it take them to put a boat out now. I'll bet it's quite a bit longer seeing they are making them for Uncle Sam instead of Johnny Bull. Well it's getting later & I am tired so will have to cut it short because there isn't any thing to write about any way. So Long & Best of Luck
As Ever your Loving Son Walter

P.S. I have been wanting to send this home for some long time. We got it when we shipped from Tenn. to Fla. we had them for tooth picks on the pull dinner car what do you think of them. Some class ay what.
