

Professor Cleaveland, LL.D.

Dear sir, Hallowell, July 23, 1825.

W. Caldwell has elected to go to Readfield; & hence there is no doubt that we shall be happy to see W. Bradbury. Pro forma, we must wait till Thursday to send him the official invitation; that being the day, when the trustees of our Academy meet. I can say this confidentially.

There is nothing new in this quarter, except that Dr. Home is going to the White Mountains to execute a commission from Mr. Nuttal; who means to avail himself of his observations & collections in a work about to be published. I have sent him a message, that if he will let the College have duplicates, I will try that he shall be repaid. Yours as ever,
B. V.
