

Hammonton Jan^a 23 1860

My Dear Niece

Your letter was duly received, but I was away from home at the time, but was very glad to have your letter to read when I returned, I was very much surprised at some of the news contained in it, especially about Slabber trying to learn to print, for it will only be trying for I do not believe he will ever learn, I concluded when I read about read about Maria crying and taking on so, because Frank was a going to break up House Keeping, that times had changed since I left Readfield, but when I come to read the other

Description: Letter from Charles Vosmus to Sarah Sanborn

side of the story, I concluded things were about the same, it seems that Professor Hunt's singing school was of short duration, I am sorry he could not have sufficient encouragement to keep it all going.

I wrote to Joe Lizzy & Rud^a last week, so I suppose Joe will not think I owe him any letter now, Gussie is going to send Joe a paper to day, and I will send you the New York Mercury, we do not get many papers here, except the Phil^a Ledger, & the New York Ledger, except what you & the rest of our friends send us from Maine, J A says he does not think much of the Phil^a Ledger, and I not suppose that it will interest you much, so I do

side of the story, I concluded things were about the same, it seems that Professor Hunt's singing school was of short duration, I am sorry he could not have sufficient encouragement to keep it all going. I wrote to Joe Lizzy & Rud^a last week, so I suppose Joe will not think I owe him any letter now, Gussie is going to send Joe a paper to day, and I will send you the New York Mercury, we do not get many papers here, except the Phil^a Ledger, & the New York Ledger, except what you & the rest of our friends send us from Maine, J A says he does not think much of the Phil^a Ledger, and I not suppose that it will interest you much, so I do

send it to you, but when
I do git one that I think you
would like I will send it to
you.

Your Aunt Rice wants to
know how the Pool girls are,
if you can inform us peas
do so, and how Mrs Mayhew
is getting along, & wether Mrs
Hiram Fifield, has had her hand
taken off, or wether it has got
well, & wether they have heard
from Lucretia Fifield, lately,
so you see you will have
something to do, to find out
about things, so as to answer
satisfactory.

I suppose you
would like to know ware Em
and I went on our tour, well
first we went to Phil^a, then to
Lancaster, then to Trenton,
then to Bordontown, then

send it to you, but when
I do git one that I think you
would like I will send it to
you.

Your Aunt Rue wants to
know how the Pool girls are,
if you can inform us peas
do so, and how Mrs Mayhew
is getting along, & wether Mrs
Hiram Fifield, has had her hand
taken off, or wether it has got
well, & wether they have heard
from Lucretia Fifield, lately,
so you see you will have
something to do, to find out
about things, so as to answer
satisfactory.

I suppose you
would like to know ware Em
and I went on our tour, well
first we went to Phil^a, then to
Lancaster, then to Trenton,
then to Bordontown, then

Burlington, but did not stop
there but a little while, there
was a car of of the track and
we had to wait for that, about
half an hour, that was all the
time we had there, and then
we went to Woodbury, and
that made out our trip for
that time, I think Trenton is
the prittiest place that I have seen
in Jersey, I think you would
like to live in Trenton, and go
to school there, I saw a good
many girls come down the
street they told me that they
attended the Normal School,
I think you had better attend
so that you can keep that school
up there in Rome, I have wrote
your Father all about Trenton
except the Manufactures, and
that I will write in the next,
we stoped some time in Bordons
town which I will tell you
about in my next, Hoping
that this letter will find you all
in good health I remain Yours
Affectionately, C.C. Vosmus
