

Baraboo Wisconsin
Patrons hearing of the 50th anniversary
Dear Mrs Robinson your kind ~~letter~~ ^{letter} of the 22nd inst at hand, from
the Golden Sheaf Grange no 234 and sets
a train of thoughts racing one after
an other, recalling a few scattered
thoughts, though somewhat so long
drawn out by lapse of fifty years.
I was favorably impressed of the Grange
Patrons of husbandry, got a blank for
subscriptions, and got brother Walker
of Hampden No 1 and we started in to
work as an organization, I being a
member for about twenty four years filling
all of the offices at different times, and
was a Deputy State Master organizing
Granges one at Island Falls Jan 6th 1885,
one at Kingman. Kept the Grange Store
for two years from 1900 to 1901, the time
that I came west, left the store in
the Grange, Arthur Coburn in charge
and you know the rest better than
I do; There are Granges in this State
but too far away for me to be a member

Dear Mrs Robinson your kind
letter of the 22nd inst at hand, from

Yes I know something of your prosperity
for I had the great pleasure with Mary
of enjoying a public reception in your
Grange hall when we visited you in 1920
and see that if farmers in our Western
states would organize and work as you
have done, would not be worrying our
congress for aid and millions of dollars for
of a class of farmers, for we already
have a protective tariff on some farm
products as potatoes, wheat &c: just as
manufacturers have, and I am glad we
have a good and wise president at Washington
to hold the balance of power within proper
bounds for our whole people:

I am wondering how many charter
members names are on the roll of Golden
Sheaf Grange: ~~hope~~ ^{altho} I am not, but that
a few yet have that honour; and how
~~you are~~ doing in the store, and if you
still hold your jollifications.

We would like to be with you again:

I met him at the National Encampment

give us a better reception than that was".
There does not seem to be any prospect of an

I am living in one of the finest
cities I have seen, a real forest city,
birds generally go south in the fall and
return in Spring. large grey black and

the houses with pea nuts corn and grain.

This city is a county seat for Sauk Co.
Two years ago I finished this house of twenty=
