

Grange Service to Rural America.

There is not a farmer, in all Rural America who is really interested in tilling the soil, who is not indebted to the grange and its long years of service. The men and women in the rural communities are indebted to the grange for the battle they have put up, to preserve the small individual farm home, to give to agriculture its rightful share of the Nations income, so that the farmer can enjoy American standards of living. few people realize what a great service the grange has rendered to its members particularly of rural sections. Thru grange influence as leader in national affairs, we have our Agricultural Colleges, experiment stations; Agricultural press and research, a department of Agriculture has been created, transportation and monopolies are controlled. Rural delivery of mails ~~has been~~ ^{was} brot about, also Rural electrification, and insurance Co. ~~has been~~ ^{was} formed for the benefit of its members a national good road system ~~was~~ ^{is} sponsored by the grange. Pure food legislation has been passed, parcel post, postal saving bank and rural credit, the development of cooperative marketing, also the right to

Description: Speech on Grange contributions

collective bargaining are but a few of
the great ^{things} ~~things~~ the Grange has ~~given~~ ^{made}
~~helped to make possible for its members~~
and the farm people of America.

And more important than these things
are perhaps the social and educational
value of the Grange, by meeting together
and discussing their problems, many
misunderstandings are cleared up. Also
the exchange of ideas for the home as well
as for the farm add much to the enjoyment
and happiness of its members, and
because of available speakers to be obtained
thru the Grange, and pictures we are able
to get thru the Agricultural department. The
Grange is helping to bring to the rural
parts of America better ideas and methods,
and the social times which go along with
these meetings have a great deal to do with
the Happiness and Contentment of Grange
families as well as the whole Community.

There is also an other thing. Go to meeting
Sunday - which means much to the Grange
its members, the church & the Community.
The Grange educational Aid fund has
helped many young people to get a start
in his or her chosen work.

The Home and Community Welfare Committee
of the Granges are doing great work not
only in the Grange but for the Community
in which their Grange is located.
The Grange is the first Organization

collective bargaining are but a few of
things the Grange has given made
the great ^ services rendered to / its members

helped to make possible for
and the farm people of America.

and discussing their problems, many
misunderstandings are cleared up - also
the exchange of ideas for the home as well
as for the farm add much to the enjoyment
and happiness of its members, and
because of available speakers to be obtained
thru the Grange, and pictures we are able
to get thru the Agricultural department the
Grange is helping to bring to the rural
parts of America better ideas and methods,
and the social times which go along with
these meetings have a great deal to do with
the Happiness and Contentment of Grange
families as well as the whole Community.
There is also an other thing. Go to meeting
Sunday - which means much to the Grange
its members, the church & the Community,

The Grange educational Aid fund has
helped many young people to get & start
in his or her chosen work.

The Home and Community Welfare Committee
of the Granges are doing great work not
only in the Grange but for the community
in which their Grange is located

The Grange is the first Organization

where the whole family can belong,
women are given an equal place with
men and by the organization of Juvenile
granges boys and girls are given a place
in grange work and rural life.
Another thing that means a great deal
to people of the grange and makes us
realize we are a part of the great Grange
work of America is our Newspapers or
papers I should say. The National Grange
monthly, and our own State of Maine
paper, of which we are very proud. "The
Grange Herald," which ~~is~~ celebrated
its tenth anniversary in August.
It is ~~indispensable~~ ^{a wonderful} as a source
of information, and inspiration
bringing us news of other granges
throughout the State.

Louis J. Taber, Past Master of the National
Grange has said, "The Grange has been
a distinct and powerful force, benefiting
agriculture, protecting the open country,
and giving to the Nation a farm program,
that seeks to protect rural civilization
now and in the generations to come."
And as the National and State Granges render
a great service to the subordinate
granges and to the whole of Rural America
so does a good live subordinate grange
have great influence & render great service
to the Rural Community in which it is
Located.
