Dear Sir

I presume before this time you have had the news of the death of my late Hon<sup>d</sup> Father

As I can not now be particulars as to his sickness the past season I will only say that it was the effects of Jaundice and an accumulation of Boil on his stomach

At times he thought himself in danger when at others that he might recover. till at length about the first of October his disorders began to be alarming and to late were, the most eminent Physicians call'd to his assistance. They pronounce'd him dangerous — could not give the least hope of recovery — He seem'd to be perfectly sensible of his alarming situation and that life must be short, resign'd, to the will of Heaven, he anticipated death with great composier, finally he impatiently weight'd the great command 'till at length on the morning of 20<sup>th</sup> Ult. about half past 5 O'clock he calmly breath'd his last. Description: Benjamin Baldwin on death of Loammi Baldwin

Melancoly news, his return is uncertain &c

However the Estate must be settle and to effect which my Brother Cyrus and myself have been appointed Administrators. I expect to be in Baldwin the latter part of December, my object will be to ascertain the situations of our property in that town get the value of it as correct as possible and certify'd by three judicious men, then by our appraisors it can be added to the Inventory, at the same time I hope it will be in your power to advance some money on your own account. In this respect I should not be so urgent did not necessity require it.

My Fathers long confinement and the sum<sup>me</sup> <sup>me</sup> added to his former contracts, has increas'd the demand against the estate to a considerable amount, among which  
(On account of a stone establish'd at the head of the canal the last spring) there is due in Boston 12 or 15 hundred dollars which ought to have been paid long before this time. Also 10 or 12 labouring men who have been employ'd on our farm, finishing the new house & with me now wighting for their money

As my avocations will not admit of a long tarrey in Baldwin, knowing your goodness I take the liberty of requesting you to assist me in effecting the object
