

May it please Your Excellency

I received y^{rs} from Casco last night by parson Moody, and according to y^r Ex^{ys} Command, I send you such a list of our men, as I conceive your Ex^{cy} would have.

No Indians have been here yet, but old Men, squaws & children, to and fro.

They upbraid us That we never sent any Ministers amongst them. May it not be now a good time now the others are gone. Church men would do best, the others would hardly take with them —
Grave leave to remaine

Your Excellencies
Most obedient
George Turfrey
