My Dear Dr Nichols:—

Bertie has written that he has been examined by you lately — We should dearly like to have you write a short letter stating your opinion as to how you found him and what we and he should do for his further good — if he comes home in May — if suitable &c &c —

I have been so much pleased with what Bert has written to us in regard to your great personal kindness to him — Really Dr both his mother & myself cannot express our deep appreciation of your kind interest and your great skill — The good Lord knows our hearts —

Trusting you may find a few moments in your busy & useful life, to drop me a few lines I am sincerely yours
