

Mechanic Falls, Aug 6, 1908,  
Dr Nickols:- Dear Sir:-  
Agnes has had two very bad  
Hemorrhages one Monday night,  
and another Tuesday night.  
It has weakened her some, but  
her temperature is normal, and  
her appetite keeps very good.  
We cannot find a boarding place  
for Agnes here, and would you take  
her back at Hebron at the same  
price as before, providing her  
Mother can raise the money,  
to pay for her there.  
It is a very hard case, and we  
don't know what can be done.  
So thought to write to you and  
find out what you would do,  
No one wants to take her here  
as they are afraid they might have  
her sick on their hands.  
Sincerely yours Margaret Verrill
