Dr. Estes Nichols,  
Hebron, Maine.

Dear Sir,-

Mr. Owen C. Holden of this city called on me this morning, stating that his wife had tuberculosis and he was desirous of having her go to the sanatorium.

He is desirous of obtaining the aid which is sometimes extended to people in his circumstances.

Mr. Holden has a permanent position in J. A. Merrill's jewelry establishment and is an expert watch repairer. He and his wife are people of splendid character and very economical in their expenditures, as his salary is not large.

He says by straining a point he could pay about nine dollars (\$9.00) a week, but more than this he could not pay.

I trust you will be able to arrange to receive Mrs. Holden at reduced terms.

Yours,  
E. T. Burrowes
