

Baldwin Mar, 20th. 1832
Dear George.
Having been in the habit of seeing you so frequently the past winter, two weeks in my estimation appear long and tedious, and what adds greatly to its length is the unpleasant circumstances of not hearing from our dear Anne. Nothing particular concerning her has reached us since you were here. Josiah told us that she was not so well as usual when he was in Town. Do let us hear from you without delay, as we feel very anxious. Give my best love to the dear girl, say that I would give much to spend a few pleasant hours in her chamber. My kind regards attend all the family of Mr L. Mother is very well, has gone out to spend the day or she would say give my love to the dear Children. I should write Anne, but should wish to fill the sheet, and my lame hand though convalescent

Report says that the tract of land
owned by you in the neighbourhood
of Dow and Richardson is more
valuable than has formally been thought
and that you are in danger of
being Cousined out of it!!

Be assured that interest in your
welfare, prompted this communication,

refuses to wish the pen for any length
of time.
