

Bowd. Coll. Sunday
March 5, 1843

Dear Father.

As Colonel Peabody has not gone yet I thought I would write you a few lines to let you know that I got your letter safely on Friday, & in what condition I am in. You said in your letter you would send me my paper by the same mail, but I suppose you did not as I did not get it. I suppose the people at Gorham are all very sorry on account of Dr. Peabody's death. His brother had prayers offered up to day that it

Dear Father.

As Colonel Peabody has not gone yet I thought I would write you a few lines to let you know that I got your letter safely on Friday, & in what condition I am in. You said in your letter you would send me my paper by the same mail, but I suppose you did not as I did not get it. I suppose the people at Gorham are all very sorry on account of Dr. Peabody's death. His brother had prayers offered up to day that it

might be sanctified to him &c.
- I have seen nothing of the comet
though I have heard considerable
talk about it. I understood that
Prof. Cleaveland said it was
not a comet but the planet Venus
in its transit over the sun. I sup-
pose it will convert a good many
to Millerism. One of the boarder's
says that he was in Portland the
other day & the Millerites there thought
the world was coming to an end that
night. - Tell Mother I should like
a Moslem de Laine (I dont think
I have spelt it right) neck-hand ker-
chief. I should like to have you send

the world was coming to an end that
night. - Tell Mother I should like
a Moslem de Laine (I dont think
I have spelt it right) neck-hand ker
chief. I should like to have you send

my flute by Col. Peabody: and a
letter. My toothache has departed
I hope never to return. It has
been so cold weather that my wood
is $\frac{2}{3}$ ds gone. I am sure & Clement
Farnam say's I did not get more
than 3 feet. I spoke to the man
about it & he said he would make
it up. I get along with as little as
I can, but I have a fireplace which
takes twice as much as even a Frank
lin stove. Give my love to all. Please
send an instruction book with the
flute. I remain
your aff. son Josiah.
I recite to Tutor Boody in Latin &
& Algebra & to Prof. Upham in Latin.
Yesterday the stage upset in Topsham
& hurt a man so that he can not
move. My respects to C. Shaw & H. Keith
