

Washington 27 March 1828

Genl I. Hodgden
Dear Sir.

In a short time Captain Russell Quarter-Master U.S. Army will be with you, he sets out on Sunday next. he goes in advance of the detachment destined to establish a Military post on our Frontier, his object is to make preparation for the reception of the troops at Houlton to learn the best rout for the troops to March to that place as well as to transport all that they will require for Subsistence and whatever may be required for the Service, I have told him that Bangor will be the proper place of Deposit, and that I suppose that when the water is up it may be ~~done~~ ^{transported} in boats to the head of the St Croix, with some Carring plans. I hope I am not mistaken, they will I expect find it necessary to cut a road some part of the way, and as I believe I have some prospect of getting a Military road made from the mouth of the Mattewamkeeg to Mars Hill. it would be desirable if possible that thier necessary cutting may be on this

Washington 27 March 1828

Genl I. Hodgden

Dear Sir,

In a Short time Captain Russell ass^t. Quarter-Master U.S. Army will be with you, he sets out on Sunday next. he goes in advance of the detachment destined to establish a Military post on our Frontier, his object is to make preparation for the reception of the troops at Houlton to learn the best rout for the troops to March to that place as well as to transport all that they will require for subsistance and whatever may be required for the service, I have told him that Bangor will be the proper place of Deposit, and that I suppose that when the water is up transported

it may be stored [^] in boats to the head of the S^t Croix, with some Carring plans. I hope I am not mistaken, they will I expect find it necessary to cut a road some part of the way, and as I believe I have some prospect of giting a Military road made from the mouth of the Mattewamkeeg to Mars Hill. it would be desirable if possible that thier necessary cutting may be on this

Description: Letter on troops to Houlton

line, but I suppose it will be necessary to
have the present cutting as little as possible. I hope
every information will be given him which may
be usefull, and that every exertion possible will be
used by the inhabitants of your section of the
Country, to make the port an agreeable one to
the detachment, and usefull to the Country, if thier
is a better rout by the way of east port and the St. Croix
I presume you will give him that information, for
I may be deceived as to your rout. I have told Capt.
Russell that yourself & Genl Treat as well as all the
other Gentlemen of your place, would be glad to give
him all the necessary information in your power.

I find that the people of Maine have
formed a correct opinion of Barrels Report, which
is one of an extraordinary character -

We have no Special news to
give you, other than what is in the paper -

Your Humble Servt
John Chandler
