

Aquia Creek Va.  
April 22/63

Dear Mother:

I presume you are feeling somewhat concerned about me by this time, especially if you have heard of the movement of the Cavalry corps. We did not receive orders to move till Sunday and started early Monday morning and I was so busy I did not have time to write. I should have written before but was waiting for some letters.

Three divisions of cavalry marched up the river to Rappahannoc Station by different routes - Arrived there about noon Tuesday - part of our regiment had a skirmish at the ford - our company were not engaged - were sent up the river on piquet - we got shelled - but no one hurt - one shell burst

Description: Sgt. Horace M. White to mother

within a few feet of me as we  
fell back through the woods - I was in  
the rear of the company and had stopped  
to pick up my hat - the pieces fell  
around but I and my horse were  
untouched.

Last Thursday I did to myself -  
accidentally - what the rebs have failed  
to do - viz. shot myself in the left  
in the foot. The wound will not  
prove serious I think: The ball  
struck just forward of the ankle  
grazing the ankle bone and passed  
down the inside of the bones of the  
foot and was taken out on the  
under side just back of the ball  
of the great toe. It has not been  
painful scarcely any since the  
first night and then it was  
caused in a great measure by  
swelling till the bandages became  
very tight as it was easy after

it was dressed. I have had as good care as could be had under the circumstances - There were no accommodations for sick there and we were 40 miles beyond our lines. We set out on our return Monday morning and arrived here last night - came from Falmouth depot on the cars. The trip to Falmouth was pretty rough - The roads were very bad such roads in Maine would not be thought passable at all but they are no rarity here.

The hospital here has been lately established and is not in very good condition yet but I think it is but a temporary one. I expect we will be moved to Washington or perhaps farther north soon.

You need not be alarmed at all for me for I am comfortable and getting along well. I will

You need not be alarmed at all for me for I am comfortable and getting along well. I will

write again as soon as I am  
settled permanently, so or if  
anything of consequence occurs  
till then you need not write  
as I shall not be likely to get  
any letters while I am moving  
about. Do not feel any unea-  
-siness about me.

Your Aff Son  
Horace
