 Description: Meshach P. Larry letter to his sister

The plan of operations we
no nothing about but
we think we shal not do
much at present as the
enemy will retreat untill
we are weakened by
Disease, and they are in
strong position then will
be hard and hot work
we are in my opinion two
month behind the time
but you know that
I am not genral of
this show or things
would go right
if you think this rather
counsetey but there is
more fools than one
that think the same
thing, I think oure generals
doeing the right thing
only not quick enough
but perhaps it is unavoid
able.
