19th Maine Regt he has had the diarrhea
the most of the time since he went from
home and at Gettysburg he had to leave
the army and go to Carvers Hospital
ward 78 and from there to the Convalescent
Camp at Alexandria about the first of
this month he was examined and marked
for the 2^d Battallion Invalid Corps his
bowels swells bad and the Doct has
to blister them and he is not likely
to be any better and he says if he
had some one to assist him or try for
him he is no doubt but ~~they can~~ you
could get him a discharge if you will
assist him I think you will be doing a
noble deed of charity besides you
will have the humble prayers of
his wife
