From Governor Pownall

The Intelligence you sent me of the Enimy's meditating an attempt upon Georges proved not only true but came very seasonably. Immediately upon Receipt of it, I fitted out an armd Sloop as a Tender to the King George: went down to Georges. Threw into the Fort a Reinforcement of thirty three men stores ammuniti<sup>o</sup>n & Provisions, Saw the Fort prepared to receive the Enimy, visited the other little fortified Places & then proceeded directly by two routs in the King George on the outside of Penobscot bay, & by the Tender on the inside of the Islands, to Mount Desert Harbour. The Sloop discovered two bodies of the Enimy one on Long Island & other on Naskeag point. Some of the latter party of the Indians showing themselves separate from the main body. Lt. Saunders & ten more, contrary to the orders I had given the officer commanding the Tender, went out in a Boat in pursuit of them, were drawn into the very snare laid for them, & taken by about forty Canoes. As soon as the Sloop joined me at Mt Desert I returned back the same way and endeavoured to get up the western side of Penobscot bay. The wind would not permit I went therefore a second time to Georges and found all quiet & well & they had heard nothing of the Enimy. I left them & made a third attempt for the western side Penobscot bay could not gett in, so came away for Boston. The Day after I left Georges The Enimy appeared & made their attempt upon the Fort, their number 50 French 255 Indians. They continued firing for about twelve hours on the Fort, without effect, Cap Saunders is the armed Sloop, whom I had left with orders to proceed to Georges & to any place where he heard of an Attack, appear'd in sight in Georges River the Enimy withdrew, & soon after sent in a flag of Truce with a woman they had taken. Whom Capt North commanding at the Fort, redeemed for 9 £. I have thus the

satisfaction to hope that I had putt the Fort in a posture of  
Defense beyond the strength of the Enemy's Force, however  
as soon as I heard of this matter I sent down again im-  
mediately Capt Hollowell. I have also sent down some French  
Prisoners to exchange with such as the Enemy may have of ours.  
I must expect that some of the straggling out settlers must  
be drove in if not taken, in the same manner as the outposts of  
an Army are driven in upon an attack. —
