State Commissioner of Education
Augusta, Maine

Dear Sir,

I would like to further comment on this matter by saying that out of all the people who have seen this flag pole none have expressed anything but admiration.

This not only includes our own townspeople, but hundreds from surrounding communities, vacationists and summer guests, including our senior Senator. All have praised and admired our school and the Memorial Pole.

The only complaint was from, evidently a most outstanding patriarch, whom I have been given to understand, served several weeks at Camp Devens, in World War I and now is drawing a substantial pension (Not compensation). Well, I, too, served in the same war but not at any camp but with the 5th Marines, and I, too, am drawing a compensation for disability received in combat and I think I have as much respect for the flag as anyone and the fact that there is a vane on the staff does not alter that respect.

Respectfully yours,

Frank L. Whitney
(One of the Trustees.)
