

Somewhere in France

June 6 1918

Dear Friend Guy:

It is about the same old story with me but I am on the gain but slow but that is better than going the other way I have got so that I can walk a little but that is but a little before I am all in it was eight weeks to a day that I did not take a step at all and when I did try and walk I could not with out help for I did not have any strength [sic] at all I hope you are getting as good weather as we are over her [sic] to do your farming in it is cool her [sic] in the morning but it warms up though the day but I cannot take any good of it now for I cannot get out of doors and probly when I do it will rain every day for all winter and up to the time that I came to the hospital it rained every other

Description: Letter from Glenn H. Holt to Guy Goodrich.

at last and most all the time we
 were up in the trenches it bad wea-
 ther but the boys that is in the trenches
 are getting good weather
 You had out to see some of the teams
 that they have over here they will take
 a pair of cattle and a pair of horse
 and put one horse and one ox together
 and looks funny to see them that
 way for any one would think that
 they would put the pair of oxen
 together and the horse but they
 dont and when they hitch onto a
 wagon they put one right ahead
 of the other they think that the farther
 they get their team from the load the
 better they like it I have seen one
 pair of oxen and a pair of horse and
 they would have them all one ahead
 of the other they would have one ox
 and then a horse and I have seen
 even four horse all one ahead of
 the other and they would not pull
 as much as we do back in the
 States with one pair and they

 were up in the trenches it bad wea-
 ther but the boys that is in the trenches
 are getting good weather
 you had out to see some of the teams
 that they have over here they will take
 a pair of cattle and a pair of horse
 and but one horse and one ox together
 and looks funny to see them that
 way for any one would think that
 they would put the pair of oxen
 together and the horse but they
 dont and when they hitch onto a
 wagon they put one right a head
 of the other they think that they farther
 they get their team from the load the
 better they like it I have seen one
 pair of oxen and a pair of horse and
 they would have them all one ahead
 of the other they would have one ox
 and then a horse and I have seen
 even four horse all one ahead of
 the other and they would not pull
 as much as we do back in the
 States with one pair and they

have got good roads to an and
 everge and it is not so hilly as
 we have it back here of course they
 have got a lot of hill but they go
 around them and follow the
 valleys for they have not got the
 streams that we have got
 They can have the hoal of france for
 all of me I had rether have a pece of
 land back in the State if it was
 only a rod square than to have
 the hull of france for me and the
 way they farm it would make one of
 you farmers go crazy to do the way
 they do and the way they live is that
 they live in born or they keep their
 cows and the rest of stock in the
 house it does not make any diffrence
 which way for they live in one end
 and the cows are in the ather end
 and the floor that they drive in is
 in the midle of the born or house
 as you may call it and they
 keep their hens up stairs or down
 sullen I dont know but some

have got good roads to an and
 everge[?] and it is not so hilly as
 we have it back home of course they
 have got a lot of hill but they go
 around them and follow the
 valleys for they have not got the
 streams that we have got.
 They can have the hoal of france for
 all of me I had rether have a pece of
 land back in the State if it was
 only a rod square than to have
 the hull of France for me and the
 way they farm it would make one of
 you farmers go crazy to do the way
 they do and the way they live is that
 they live in born or they keep their
 cows and the rest of stock in the
 house it does not make any diffrence
 which way for they live in one end
 and the cows are in the other end
 and the floor that they drive in is
 in the midle of the barn or house
 as you may call it and they
 keep their hens upstairs or down
 sullen I don't know but some

some of them keep them in the house
and they pile all their dressing
right out in the front yard and
in some place in all most in the
front door of the house they keep
their back yard cleaner than they
do the front yard it is no wonder
that the french has so many deases
as they do
I would like to be back home and
helping on this spring but I am a good
ways from it, and if I was back in
candishian as I am now I would not
be of any good if I ever do get back
home again I shall be contented to
do most any thing
