Dear Miss Walker,

Regarding information on Edna St. Vincent Millay for a term paper, - you write that Mr. Perry has already sent you some material, and no doubt, it contains the same data which we have here in the Library.

I was in Vincent's class the last three (3) years of High School, since I moved here about that time so I did not know her personally

Our group of girls had many happy times together, in school, in picnics, boating and mountain climbing.

Always she was ready for a good time, adding much to our enjoyment, for she was a lover of nature, so we all learned much from her, as she

was very observant of life
about her, be it of birds, or of
people; trees or flowers; She
was a very fine student in school
and out. A most accomplished
musician, especially in the
classical realm. But for our
group singing, of a social evening,
the latest "ragtime" of our day, we
had much fun and Vincent at
the piano could improvise to
perfection.

She had many talents and used
them all. Actress, poet, musician,
student - but if you wish to do

She had a keen sense of humor & a sympathetic understanding of [?].
