my time goes that way. Bep has had two invitations to go as nurse - one to Chambersburg, Penn. with Louise and one to Washington in Miss Dix's hospital. She had a very strong inclination to go, and I think the only reason she reluctantly declines this last, is the short time for preparation - only a few days and our dressmaker is in Portland. It requires something of an outfit, as they do not wear ~~hoop~~ hoops. She would require three or four plain dresses, and has not made a stitch on flannels etc, for Winter. If she should have another ~~inv~~ invitation a month later I am afraid she would go. I do not think she is strong enough for hospital service. She will not hear a word of my going - says she would not stay at home all Winter without me. I tell her she is a pretty baby to go as nurse.

We have also been busy making a few mementoes for Nellie Dow who will be married Tuesday. I have made an evergreen and everlasting wreath to-day for Bep to give her. Jen wrought a pair of drawers very handsomely for her and made and framed a beautiful wreath of Autumn leaves and a pair of mats. I made a flower-wreath.
