My Dear Father

Your kind letter of the 23rd inst containing \$100 Draft was duly received, & I can assure you the "Draft is of some service to me at this time" — The truth is I am an apprentice — My whole time is given to another without any compensation — and such is the state of things that for all the small jobs I have been able to get in the way of my profession I have not as yet realized over 25. Dollars in cash since I entered a Lawyers Office — I can collect nothing, I can sell nothing — & of course I have been obliged to borrow from day to day of my friends, who can ill afford to spare any thing these hard times. & whose confidence and patience I have well nigh lost, in order to pay my necessary expenses. — I have lived as economically as possible. Still so much of my time is lost in my daily efforts to keep along & so much distraction of mind does it cause me, that I have several times been on the point of turning to some other business that will give me an immediate support & I know not now how I am to get through my profession unless I can sell some stock or borrow some money — I see no prospect now of selling stock — Should I ~~now~~ now leave the Law all my labor

My Dear Father

Your kind letter of the 23rd inst containing \$100 Draft was duly received, & I can assure you the "Draft is of some service to me at this time" — The truth is I am [paper torn] apprentice — My whole time is given to another without any compensation — and such is the state of things that for all the small jobs I have been able to get in the way of my profession I have not as yet realized over 25. Dollars in cash since I entered a Lawyers Office — I can collect nothing. Description: K.B. Sewall to Ezekial Day on job prospects

for practical purposes will be lost. — I have not before mentioned my circumstances to you in particular, because I knew that you were perplexed with your own affairs — and wished as much as possible to refrain from adding any thing to your cares or anxieties — & I have also been hoping to dispose of some thing that would meet my present wants. —

The \$100. that you sent me will pay up my board & some small sums of borrowed money up to this time — I owe besides to Richardson & M^c Cobb borrowed money \$150.—

To A.K. Barrows ————— " " — 100.—
which ought to have returned some time ago — 250.—
I have tried to sell my watch or raise money in it — but without success. — Such is my situation —

My prospects are good — I am in one of the best offices in New York — I have got through the worst part of my clerkship — my time & services are becoming every day of more value — & I can probably next year get a salary if I choose — Richardson & M^c Cobb give me their business, & so will many others — if I do not lead them to avoid me by being compelled to ask them for money — I am managing a suit now that Richardson & M^c Cobb have sent me which will probably pay me \$50. in the course of 6. or 9. months — I can get admitted into the Common Place

I have tried to sell my watch or money on it — but without success. — Such is my situation —

My prospects are poor — I am in one of the best offices in New York — I have got though the worst part of my clerkship — my time & services are becoming every day of more value — & I can probably next year get a salary if I choose — Richardson & M^c Cobb give me their business, & so will many others — if I do not lead them to avoid me by being compelled to ask them for money — I am managing a suit now that Richardson & M^c Cobb have sent me which will probably pay me \$50. in the course of 6. or 9. months — I can get admitted into the Common Place

the coming Fall - & to the Supreme Court on the first
of January 1840. — \$1000. will carry me safely into
my profession - perhaps less - a part of this I have no
doubt I can, by & by, raise by selling some Pensawco Stock
but at present I have no means of raising a dollar -

I have not the least fear of success after entering
my profession. My acquaintance is very extensive -
the time will be valuable - I am not disposed to
be discouraged - though in view of my present
unpleasantments I have almost given up -

I have given up all hope of realizing any thing for
my speculation - I depend now entirely on the prospect before
me - Only let me get safely into that & I am satisfied
I will work as hard as any one -

I have no doubt Little Eunice receives much attention
from you all, you must not spoil her - all my letters
from home agree in calling her a beautiful nice girl,
I suppose that she must be - I shall always remember with gratitude
the kindness of her Grand Parents to her & her Mother, & I hope she
may prove a blessing to them in their old age -

I shall keep up good courage, do not fear for me,
better times will come, be assured of that, your affectionate
son K.B. Sewall
