

WANTED:

Disaster Help!

The Ice Storm of January 1998 is a crisis ranging from Northeast U.S., including Hallowell, Maine, to Montreal, Canada. Don't be blinded by the stunning and beautiful sparkle. Families are worried, cold, and asking for help.

"The poor trees! Can you move the fallen limbs on my street?"

"Our power has been out for three weeks."

"We can get through this storm together!"

"I'm glad I have the radio."

"CMP, Troops, Helpline workers, and 103.9 FM WOVM-

Thank you! But we need more assistance..."

"Where is the nearest shelter?"

"The Ice Storm has kept us home from work and school. We need electricity!"

"My neighbor is distressed because he's losing heat, doesn't have running water, and can't leave his driveway. Please help."
